

## *Steps to Authorize Users and Install App*

If the location has purchased a Guidanz Service Package, follow the steps below to finish the setup for using Diagnostic Toolkit.

1. Contact Cummins Subscription team about “Guidanz Service Package”
  - a. Provide a list of users to be given DTK access to Subscription team using the Guidanz Registration Form (see separate attachment)
  - b. Subscription Team contact:
    - i. US – [cssna.ertools@cummins.com](mailto:cssna.ertools@cummins.com)
    - ii. Eastern Canada – [cec.ertools@cummins.com](mailto:cec.ertools@cummins.com)
    - iii. Western Canada – [cwcetools@cummins.com](mailto:cwcetools@cummins.com)
2. Download and install DTK
  - a. Visit [DTK](#) page, scroll down and click download button\*
    - i. If link does not work: <https://www.cummins.com/support/digital-products-and-services-support/guidanz-windows>
    - ii. \*Contact your local IT team for download and installation support as needed
3. Run Update Manger to get latest version
4. Once installed, this DTK icon will be available on the device desktop/home screen
5. Double click the icon to launch DTK
6. Use the same credentials to login into DTK that are used for QuickServe Online
